Deaths. Mrs. M. M. Satterwhite died at her home near Bush River Church, Wed-

Mrs. Rhinehart, after a severe and protracted illness of over three months, died at Prosperity on the 27th of July. She was 80 years old, and was the mother of Mrs. Dr. Langford of the same place. She was indeed a mother in Israel, being one of the original members who was at the organization of Nazareth Church, 65 years ago.

Mr. Henry Boozer, aged 82 years died at Prosperity, August 5th. He was the father of Mr. H. S Boozer. For more than fifty years he had been a worthy and consistent member of St. Luke's Church. He enjoyed good health all his life, never having had the need of the physician. He leaves six children—Mrs. Mary C. Lester, Wm. D. Boozer, Mrs. Nancy M. Hawkins, Mrs. E. Long, together with grand-children and great-grand-children to mourn his departure. He was a For more than fifty years he had been grand-children and great-grand-children to mourn his departure. He was a good man and highly respected.

Mrs. W. T. Wright died on Sunday merning, after a protracted and painful illnes of that fell destroyer, consumption. She was an exemplary member of the Baptist Church, to all the requirements and obligations of which she strictly adhered, and the consolations of religion enabled her to bear her sickness with serene resignation. She has left two little boys, a daughter and her husband to bear the loss inflicted on them by Divine Providence, and has gone to the rest prepared for the faithful. This is a peculiarly sad dispensation to the husband, as he within one snort year has been called upon to part with a son and a daughter, both in the bloom of life. He has

We learn from the Manchester (N.H.) Mirror and American, that Mr. Ed. B. Gillis died recently after a protracted illness. There are those here who will learn with regret of the death of this worthy young man, for in the brief space of his sojourn here, from April to June last, in quest of health, and accompanied by his sister, he won the confidence and respect of many for his intelligence and moral worth.

Peter Shell, an old colored man who lived on Mrs. Betsy Floyd's place, dropped dead Wednesday afternoon, while in the act of emptying a sack of wheat on Mr. G. B. Reagin's place, for the thresher. The probability is that he died either from the rupture of a blood vessel or heart disease.

Monthly Prayer Meetings.

We take pleasure in calling the attention of the community to the fact that a "Circle of Prayer" has been inaugurated in our town, and that a weekly prayer meeting will be held Friday of each week, alternating in the various churches. Mr. A. E. Potter lately came into our midst is the mover in these meetings, and we hope that the members of all the churches will give their sympathy and aid in a matter of such vital interest to the community.

Evidence of Business.

The two valuable lots lately purchased by Mr. Robert L. McCaughrin, known as the Duncan and Pratt lots, will at once be built upon, and two stores, each 32x90 feet, will afford place for as many merchants. We understand that they have already been rented. It is a good plan to strike the iron while it is hot, but we have never known it to be struck before being subjected to heat, and we hail this prompt action as an evidence of busiprosperity and activity. We wish all the parties success. building on these vacant lots will fill a vacuum long looked upon with pain.

of much wisdom. We learn that there were nineteen applicants for the position, many of them highly meritorious; but the well-known abilities of Miss G., together with the numerous and well-earned letters of recommendation presented by her, showed her fitness for the place. We are much pleased at this appointment, for the Academy and its scores of bright, intelligent pupils are assured of an able and accomplished teacher, and one too who will

Soon will be heard the hum of its thousands of spindles, a..d the fleecy cotton be converted into yarn and cloth. We think it would be appropriate to celebrate its day of opening by a holiday and a general invitation to the community to risit and see the "veels go vound."

We learn that two freight bills for machinery, one of \$1,400 and the other of \$3,200, have been paid out lately. It takes money to make money. Some of the operatives of the late Saluda Factory have secured employment at the Newberry Factory as common laborers for the present.

He discovered that the true art of healing is o assist Nature to throw off the diseasesummon, as it were, the whole system to eject the enemy that has fastened on a part. His processes all included the reinvigoration of the principle of life."

In this the Eastern sage merely anticipated the practice of the best physicians of to-day. What life itself is, nobody knew then-nobody knows now. But we have learned something of the reasons why the mystericus tide rises and falls. Provided the great organs of the body are not irreparably de-stroyed, medical science can always relieve, and often save. Yet no reputable physician now adheres to the barbarous and stupid processes of depletion, such as bleeding, by which it was attempted to cure disease by reducing the patient's ability to resist it elp the garrison-we strengthen it.
